SATURDAY, Aug. 16, 1851.

There is a more buoyant feeling in the stock market, and more disposition to operate in the pancreas. The impression is becoming general that the lowest point has been reached and many operators are taking cash stocks out of market. A very large proportion of the sales are for cash, and the bears seem less willing to make short contracts. At the Second Board the market was buoyant and the improved feeling of the morning was well sustained. Erie closed at 70, Norwich at 49, Canton at 53. Conveneres 86, Readings 50. The feature of the day was the decline in Delaware and Hudson, which sold at the Second Board as low as 102, seller 10, and 96, seller 4 months. These prices show a decline of 9 per cent. within the week. The principal bear of the last five or six weeks is a very large holder of Delaware and Hudson at high prices, and the movement against it is probably aimed at him.

In Exchange there is but little doing, and the rates are unchanged. Sterling at 91/10; France, 53 1/2(63 1/2). The supply of strictly first class bills is moderate, but the recent shipments of broadsides &c. were making some bills which sell at 92/9 per cent.

Freights are firmer and the advance checks transactions. Engagements, 3,000 or 4,000 lbs. of Flour to Liverpool at 15d. Cotton, 1d. Grain, 4d. asked. Dead weight 10@12s. 6d. To London, 3,000 lbs. Flour is 9d. @1s. 10d. 50 tons Furs, 20,000 lbs. Tobacco, 3s. 20d. h.c. do. 6s. 22 cases India Rubber, 28s. 1,500 lbs. Naval Stores at 2s. To Glasgow, Flour, 1s. 8d. Tallow and Grease Butter, 26s. and 25 tons Whale Oil, 25s. The bark Trynham was taken up to load Flour on private terms. Two vessels were taken up to load Naval Stores for Hull, at 2s. 6d. P.D.B. To Antwerp, 225 bales Rice, at 2s. To California there is a fair amount offering at 15@20 cents. To Southern Ports, there is no alteration. Two brig's to fetch Salt from the Sull Islands, were taken at 10 cents. and two small vessels. Floating Boards from Jacksonville, at 9s to Bridgeport, and \$8 62 to New-York. In port yesterday.

We have no change to note in the money market. On call the supply is fair at 7 1/2 per cent., and paper continues to go with difficulty at 10@15 per cent. for first-class signatures, and 18@24 per cent. for less esteemed names. The supply of first-class paper is not large.

The receipts at the Sub-Treasury are \$17,511, paid \$31,195, balance \$3,367,463.

The receipts of the Michigan Central Railroad Company for the month of July in each of the past two years, were as annexed.

1850. 1851.

Freight.....	\$11,331 66	\$22,048 14
Passenger.....	42,100 51	62,332 46
Miscellaneous.....	3,159 81	2,401 56

Total..... \$56,585 48

\$78,782 16

This shows an increase of more than 50 per cent. compared with last year. The greatest increase was in the freighting business.

The receipts of the Saratoga and Washington Railroad Company in July were \$29,665 38, against \$12,933 93 for the same month last year, showing an increase of \$6,672 35, equal to nearly 48 per cent.

The Pacific took \$413,000, which is rather less than was anticipated. The amount of American gold, excepting 5,000 sovereigns. The entire shipment of the week is \$899,757, and the total of the year, thus far, \$26,169,949. The shipment of American coin last week was less than \$600,000.

There appears to be very little disposition to bid for the Canal loan, which is to be awarded on Tuesday next. Partly the stringency in money is the reason of this, and partly the falling off in the demand of stocks for banking purposes since the Metropolitan Bank commenced demanding specie of a portion of the country banks. When this loan was first advertised, one of two lists were being made up here to take large parcels, but of late the parties have abandoned the intention of bidding. It is most likely, however, that the whole amount will be bid for at a small premium.

The advices by the Baltic are not important, but generally favorable. Cotton remained firm, with a fair business doing. The prospects of the harvest are promising, and the trade of the country generally was flourishing. In Paris, business was improving.
